

# A5 Orbital Controller 75

## OVERVIEW

The controller unit of the system is located in a durable plastic case, where it can be operated, stored and transported. It has an intuitive graphical user interface with touch screen controls. Series 75 TIG controller requires an external power source.

## TECHNICAL SPECIFICATIONS

### A5 Orbital Controller 75

Product code	6204075
Input power	90 - 240 VAC, 1A
Welding positions	All (PA/PB)
Auto-stop	Yes
Weld head	7530 & 7540
Pipe outer diameter range (min.)	9.5 - 101.6 mm
Weight	6.0 kg
Degree of protection with cover opened	IP 52
Degree of protection, cover closed (transportation)	IP 65
Operating temperature	-20 – +40 °C
