

Conical gas nozzles for water-cooled gun necks

OVERVIEW

Conical gas nozzle for water-cooled gun necks with screw-on type connection to the neck. Designed for long life and heat transfer purposes.

Three lengths to choose from (TCP remains the same)

- 2 mm, best gas flow, gas nozzle most sensitive against spatter
- 0 mm, recommended as a default
- +3 mm, best accessibility, gas nozzle less sensitive against spatter generation, gas shielding reduced

TECHNICAL SPECIFICATIONS

Conical gas nozzles for water-cooled gun necks

Product code	SP600557B, 500-W 15,5 / +2,4 SP600558B, 500-W 15,5 / -1,1 (recommended as default)
