FastMig M Synergic

BENEFITS

• Increased welding speed, penetration, quality, and ease of use with WiseFusion.

• WisePenetration application software delivers consistent power to the weld pool regardless of distance changes and deviations between the welding gun nozzle and work piece, reducing welding defects and parameter adjustments.

• Modular design in both hardware and software provides endless process solutions and choice, increasing equipment efficiency and utilization across a wide range of demanding industrial applications.

• Excellent and unique distance and access solutions, SuperSnake GT02 sub feeder, providing wire feeding up 25 m from the wire feeding cabinet and allowing up to 60 m distance welding from the FastMig M power source.
