

Flexlite GX - X8 MIG Welder

BENEFITS

- Gas-cooled and water-cooled versions available
- Ball-jointed cable protection reduces wrist loading
- Removable pistol grip handle included in every product package
- Up to 35 % lower contact tip temperature thanks to innovative gun neck structure
- The genuine Kemppi consumables are a guarantee of a long lifetime
- Less consumables mean lower inventory costs
- On-torch remote control GXR10 available
- The anatomically designed handle gives a firm grip
- All models are equipped with a QR code that takes you directly to relevant information

OVERVIEW

X8 MIG Welder is designed to be used together with Kemppi's Flexlite GX level 8 MIG welding guns with a Kemppi connector. User comfort, welding efficiency, and extended consumable parts life.
