Wisethin+

BENEFITS

• Higher welding speed than in traditional shot arc welding
• High quality welds, reduced post weld rework
• Lower heat input and thus also less deformation
• Decreased amount and size of spatters
• Stable arc for positional welding for thicker plate thicknesses
• Excellent arc ignition for tack and intermittent welds
• Savings in welding costs as you get mixed gas welding characteristics with pure CO2
• Down hand and all positional welding
• Easy to make short welds because of accurate arc control
• Suitable for brazing
• Expands the parameter window and thus reduces the need to use smaller wire diameters
• Soft and pleasant arc characteristics
• Easy to use
