

PRO KIT 5/16-24

VANTAGGI

Kemppi's genuine PRO consumable starter kits include a complete set of consumables for your TIG welding applications. They include multiple-sized nozzles, glass nozzles, lenses, collets and collect bodies ready to be used with small or large torch bodies.

The kits come complete with a pre-labeled cartoon box for convenient storage and easy re-ordering. By selecting Kemppi TIG consumables you will receive the durability and performance that you need.

PRO KIT 5/16-24 is for small torch bodies.
